APPLICATION NO.	FILING DATE	FIRST NAMED INVENTOR	ATTORNEY DOCKET NO.	CONFIRMATION NO.	
10/591,433	09/01/2006	Mikio Izumi	295880US2PCT	1754	

TITLE OF INVENTION: SAFETY PROTECTIVE INSTRUMENTATION SYSTEM AND ITS HANDLING METHOD

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	07/19/2010

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THE APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FIEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 627 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 627 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

DETAILED ACTION

And

EXAMINER'S REASONS FOR ALLOWANCE

- Claims 1, 2, 4, 5 and 7-15 are allowed.
- 2. The After-final Amendment to the claims submitted on 4/5/2010 has been entered.

Response to Arguments

- 3. Applicant's arguments, see Amendment After Final, filed 4/5/2010, with respect to the 35 U.S.C. 112 second paragraph and 35 U.S.C. 103(a) rejection(s) of claim(s) 3 and the remaining claims have been fully considered and are persuasive. The previously applied rejection(s) of claim(s) 1, 2, 4, 5 and 7-15 have been withdrawn.
- 3.1 More specifically the argument(s) as set forth on page 9 of the response;

"The rejection of Claim 3 under 35 U.S.C. § 112, second paragraph, is respectfully traversed. In the safety protection instrumentation system recited in previous Claim 1, the digital logic includes a plurality of functional units having logic circuitry in which output logic patterns corresponding to all potential input logic have been verified in advance and a functional module formed by combining the plurality of functional units so as to form a logic structure different from the logic structure of each of the plurality of functional units individually.

In other words, a small functional unit or element (soft) is output in a different FPGA in advance and, subsequently, logic is verified by a circuitry (hard) on that FPGA."

And continuing on page 10;

Application/Control Number: 10/591,433

Art Unit: 2123

"Thereafter, by using the verified plural functional units, plural combinations thereof constitute the entire functional module (soft) to thereby install into another FPGA unit (element) different from the verified FPGA to constitute the circuitry (hard).

On the other hand, the safety protection instrumentation system of Claim 3 represents a structure confirming, on the soft, that the logic constitution (soft) in the functional units is not different from the logic constitution of the verified time at the time of making the entire functional module (soft), the plural combination using a plurality of functional units recited in previous Claim 1."

These arguments have provided clarity in that it is now clear that the claimed functional units have been verified in advance and that the claimed verification only checks the interconnections to the *pre-verified* functional logic units.

Novelty, further, this performance of a verification of only the interconnections to the functional logic units is clearly different from the verifications as clearly disclosed by the prior art of record in that only the interconnections are being verified and not the entire logic functionality as a whole. See the Examiner's Reasons for allowance below.

Examiner's Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

While Stroud et al. teaches a safety protection circuit for a nuclear reactor and Butts et al. teaches identical functional units configured in such a manner that they form new functionality, none of these references taken either alone or in combination with the prior art of record disclose, using branch coverage or toggle coverage to determining if branch paths between identical functional logic units are correctly connected to each other, specifically including;

(claim 1) "software which describes effective programs statements executed by hardware and input pattern groups indicating operation paths, uses branch coverage or toggle coverage for evaluating the ratio of the input logic patterns, and determines whether the output logic patterns corresponding to the input logic patterns coincide with predicted patterns calculated from design specifications to verify that the functional units are correctly connected to each other",

(claim 13) "describing effective programs statements executed by hardware and input pattern groups indicating operation paths; using branch coverage or toggle coverage for evaluating the ratio of the input logic patterns; and determining whether the output logic patterns corresponding to the input logic patterns coincide with predicted patterns calculated from design specifications to verify that the functional units are correctly connected to each other.", in combination with the remaining elements and features of the claimed invention. It is for these reasons that Applicants' invention defines over the prior art of record.

- 4.1 As regards dependent claims 2, 4, 5, 7-12, 14 and 15 they are allowed for at least the reason that they depend upon an allowed base claim.
- 4.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DWIN M. CRAIG whose telephone number is (571)272-3710. The examiner can normally be reached on 10:00 - 6:00 M-F.

Art Unit: 2123

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul L. Rodriguez can be reached on (571) 272-3753. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
